EXPERIENCE

FullStack Engineer
FanDuel
04/2021 - Present

- Maintained, extended and added features on a React Native and web app which is the top sports betting app in the US
- Ensured new state launches were successful and compliant with regulators requests.
- Worked with cross platform teams to ensure successful upgrades of various sdks.

Front End Developer
Arnold Clark
07/2019 - 04/2021

- Developed a "game changer" valuations app which allowed trade-in valuations to be completed during covid imposed lockdown. This app not only ensured customers were still able to trade in their vehicle but it also provided the company with a one source of truth, audit trail of vehicle valuations.
- Built and maintained various in-house component libraries and style-sheets.
- Made key architecture decisions for greenfield applications, ensuring the best technology was used for the task at hand.
- Collaborated with product owners, designers and back end developers to ensure all requirements of the apps were met.
- Mentored junior developers.

Instructor
CodeClan
02/2018 - 07/2019

- Actively supported students with classroom and assignment work acting as a first point of contact for technical help during assignments and projects.
- Delivery of lessons, labs and homework reviews.
- Played an active role in ensuring course content met industry requirements. Played a key role in bringing Vue.js to the curriculum via writing content, teaching and presenting our findings to the company wide instructor team
- Mentoring and development of Technical Assistants.

Systems Administrator
Schuh
03/2013 - 05/2017

- Created, developed and implemented training materials and programs for new technology and processes
- Provided technical support to all stores in the UK, Ireland and Germany to ensure continual functionality within stores.
- Investigated and compiled reports on potential cases of fraud processed through till systems.

SUMMARY
